HEROISM OF A MOTHER.

The greatest heroism displayed on

the occasion, of which we have any

knowedge, (the wreck of the Niagara,

on lake Michigan,) was shown by a-

mother in her offort to save the lives of

ner eight children, the eldest of whom

was only fourteen, and the youngest one

year old. She was picked up by the

fraveller insensible, and nearly perish-

and brought to this city. She did not

know last evenig whether or not any ot-

three were taken a shore in the only

boat that pulled off from the burning

steamer. Mrs. Chalmers says that

saw the stern boat lowered, and obser-

thought, if the boat reached the shore,

and she herself did not, that woman

would be like a mother to her children,

so she commenced throwing he smaller

children into it, intending to keep the

baby by her, because she could easier

support it in the water than the others.

She had thrown two into the boat when

it shoved off. She had one in her hands

to throw, but it was too late to throw so

arg a one to the boat; accordingly she

seized the baby and, supposing she had

strength to throw it to the retreating

The severity of the summer to one who had lived for several years in a part of the globe where reigns perpetual ice, the effects of climate in that quarter, and an almost total change of made necessary by it, with the mental and physical labor rexuised for the publication of his narrative, have told upon a constitution apparently not very robust, and a visit to Europe, for the benefit of the baths of that country, is deemed desirable by his friends. We hope that they may bear healing medicine on their waters, and restore him to his country and his friends buoyant in health and strength, and ready for any service that his country or the claims of humanity may reque of him.

Lady Franklin, on hearing a rumor that Dr. Kane would leave for Europe, had a house furnished for his reception and waited in anxious expectation the arrival of each steamer in the hope of meeting him.

A CHANCE FOR A GOODINVESTMENT.

NTENDING to ren ove to Missouri, where every othler member of my family is located, I will sell my Steam, Saw, Corn and Lath Mill at Berry's to which with comparatively little outlay the Distiflery and Flouing bus, ness may be added the machinery is all in excellent order, and with one saw, five or six thousand feet of inch boards can be easily sawed in ten hours, and the boiler which, never used before this year, is large and new, is be ieved to be capable of generating steam, by the use of part only of the saw dust and slabs sufficient to saw lumber and mash one or 2 hundred bush per day. All who have thought of the matter pronounce it one of the best interior locations for theproposed business, its advantages consist in its locatons being in a fine grain and hog district, free of competition, for evidence examine our growing crops, and it is within 2 or 3 mites of the oak and hooppoleland which will enable the establishment to supply itself with barrels, free of hauling, and therefore, on unusually favorable terms. It is situated on the bank of south Licking, which af fords a constant and plentful supply of river water, the very best for distillering in proof of which, look to the high reputation for ameliorating qualities of Keller's whisky.

It is located on the Cov. & Lex R, R., at Berry's Sta-
